VILLA CALMA - MODERN MANSION BUILT ON ONE LEVEL, FOR SALE IN MARBELLA CLUB GOLF RESORT

This truly unique property is situated across almost 6,000m² plot within the prestigious and tranquil setting of the Marbella Club Golf Resort in Benahavis. Set across a single floor, this expansive 1,021m² home offers incredible south-facing views of the Mediterranean and Gibraltar from its floor-to-ceiling windows and discreet rear terrace.

As you arrive across the private driveway, you'll notice the sleek and simplistic silhouette of the property and views framed by the generous over-ground carport. Approaching the property, you're immediately greeted by the dramatic double-height entrance hall that's encapsulated in glass for maximum light.

The forward view as you open the front door rewards you with one of the true standout features of the property – the lavish central atrium, housing grass, trees and a walkway – flanked by the rest of the single-floor living areas. As well as the six bedrooms and nine bathrooms on offer, this modern Marbella mansion features luxury comforts, including a cinema room, gym and spa facilities, indoor and outdoor swimming pools, a spacious seven-car garage and separate staff quarters.

The luxurious interior styling combines more modern, minimalist design cues with some classic 1960's inspired elements; such as dark woods, softer textures and natural curves that oppose the angular lines of the property's exterior. Each room is flooded with light thanks to tall windows that allow the surrounding subtropical landscape to pour in whilst achieving ultimate privacy and security.

Making your way out of the kitchen onto the rear terrace, housing a secluded dining area, you'll be able to breathe in the stunning landscape consisting of manicured golfing greens and views of North Africa on the horizon. The south-facing rear of the house boasts a large garden, swimming pool and sheltered outdoor lounge area.

If you're looking to purchase a real statement of architectural design, you'll have to experience this modern Marbella mansion for yourself.
